

TRAINING AND DEVELOPMENT

PREVENTATIVE CARE IN THE WORKPLACE

Training is good preventive medicine. It helps an employer provide a consistent, accurate and effective approach to critical employment issues.

Davis & Kuelthau's on-site training programs provide the information and insight needed to help your staff and your organization face the challenges of employment law. The programs demystify employment laws and regulations, and translate them to specific on-the-job "do's and don'ts" that help minimize employment problems.

In the event an employer does have to face an employee at opposite ends of the legal process, information learned through the training program can help effectively defend such claims.
